## TECHNICAL SKILLS

- **Proficient:** C, C#, .Net, Java, JavaScript, ReactJS, Visual Basic, VB.Net, PHP, Ruby on Rails, CSS and HTML
- **Exposure:** MySQL, PostgreSQL Unity 3D

## PROJECT WORK

**Stock App | Developer | [Code URL](#) | [Live URL](#)**

2021

*A Ruby on Rails app simulating real-time stock market trading.*

- Enables buyers and brokers to view their individual transaction history, while admins can view total transactions.
- Developed a sign-up and login authentication feature so traders can access their stocks using Devise Gem.
- Developed buy and sell features where a trader can take profit and execute a trading strategy.
- Utilized the IEX Gem to retrieve company information and the latest real-time stock prices.

**Journal App | Developer | [Code URL](#)**

2021

*A Ruby on Rails app tracking and categorizing day to day tasks based on personal prioritization.*

- Created a feature allowing the users to create, read, update, and delete tasks in real time.
- Built a notification feature allowing users to prioritize urgent tasks for upcoming deadlines.
- Users can view the rate of progress in tasks done per category for users to view their progress.
- Developed a sign-up and login authentication feature for traders to access their stocks using bcrypt.

**Blog App | Developer | [Code URL](#)**

2021

*A Ruby on Rails App that allows a user to create tasks in different categories.*

- Built a feature allowing users to add articles and post them in real-time to the user homepage.
- Added features for users to add deadlines to their tasks and view which tasks are completed.
- Added options to select theme and background design for the homepage.
- Created a feature allowing users to create custom categories to sort their tasks.

**Slack App | Developer | [Code URL](#) | [Live URL](#)**

2021

*A React JS app that enables users to communicate with other users through direct messaging.*

- Utilized Axios library to communicate with the API to develop CRUD & messaging functionality for text channels.
- Implemented a feature that allows the users to send messages instantly to friends added to their account.
- Developed a feature that enables the users to create their own channel and add members.
- Added a feature to show recent messages from other users.

## PROFESSIONAL EXPERIENCE

**Accenture | Business Process Delivery Associate | Philippines**

JUNE 2019 - JANUARY 2020

- Collected customer data and created comprehensive reports and improved future marketing strategies and campaigns.
- Completed over 20,000 audio clips transcribed that makes AI accurate.
- Completed transcriptions and checked for spelling, grammar, or formatting errors, as well as other inconsistencies.
